

Your Awesome Title

Author One^{1*} and Author Two²

2021-11-02 15:56:55

¹Department of Biological Sciences, Louisiana State University, Baton Rouge, LA, USA

²Center for Computation & Technology, Louisiana State University, Baton Rouge, LA, USA

* **Corresponding author**, email: daijianglee@gmail.com¹; 125 Life Science Building, Baton Rouge, LA 70803

Running headline: Environment and species richness

Abstract: Your awesome abstract here.

¹<mailto:daijianglee@gmail.com>

Introduction

Here is your introduction. It should describe clearly the rationale for the study being done and the previous work related with the study. It should also tell readers about your specific hypothese/questions being addressed. Citations will be like this (Adair et al. 2010), or (e.g., Clark and Tilman 2008), or (Eriksson and Ehrlén 1993, Williamson et al. 1999)

Here is the second paragraph of the introduction.

Methods

Here is the method section. You can include equations easily. For inline equations, use $\text{var}(X) = p(1 - p)$. For display equation, use

$$\text{var}(X) = p(1 - p)$$

Results

Tables Insert tables by kable in knitr package in R. Then cross-reference it back with: see Table 1.

Table 1. Model coefficients of leaf senescence based on in situ data. No space at the end of this line!!

Plot	sprich
3294	31
3297	28
3299	26
3330	27

Put results inline, e.g. the mean species richness is 28.

Insert tables by xtable package in R Show as Table. 2:

Table 2. Caption here

	Df	Sum Sq	Mean Sq	F value	Pr(>F)
pH	1	4.58	4.58	4.77	0.2733
shade	1	8.45	8.45	8.80	0.2070
Residuals	1	0.96	0.96		

Insert tables by hand Show as Table. 3:

Table 3. Caption here.

Col A	Col B	Col C	Col D
row 1	190	112 ± 2	233 ± 3
η	0.13	0.12	0.12
η^2	0.14	0.13	0.50
η^3	0.15	0.31	0.52

Figures Insert figure by code chunk. And cross-ref it back as Figure 1.

```
## `geom_smooth()` using formula 'y ~ x'
```

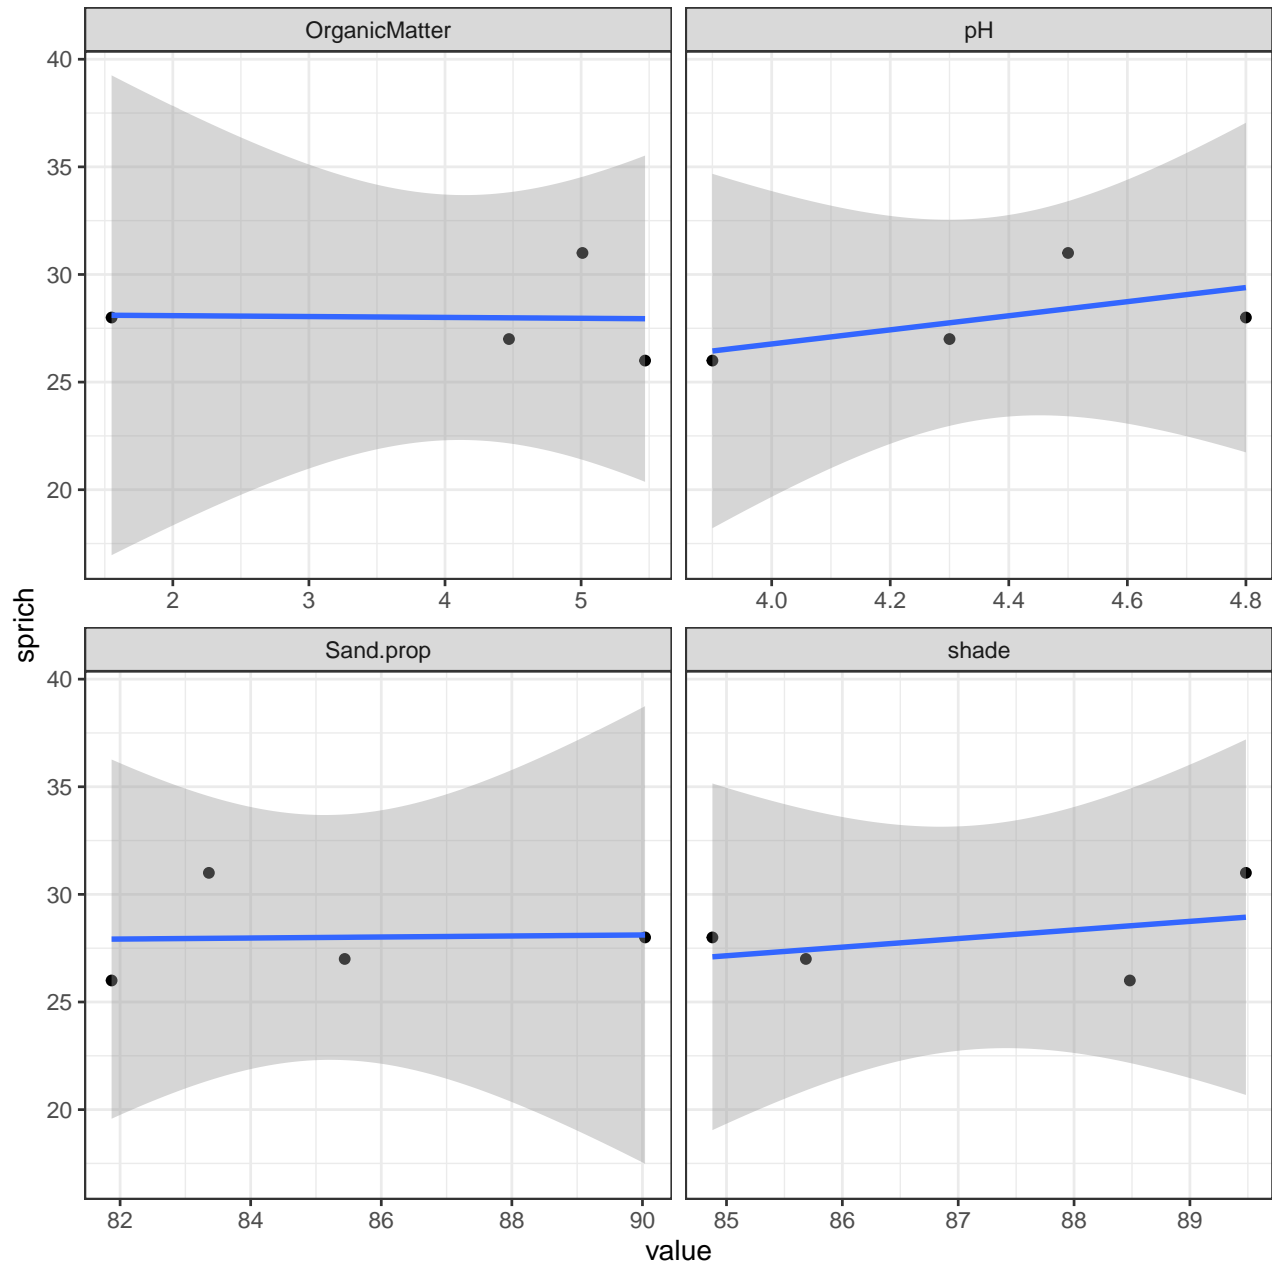

Figure 1. No - or _ in the caption ref. No space at the end of this line!

Or if you already have the figure:

And cite it as Figure 2.

Figure 2. No - or _ in the caption ref. No space at the end of this line!

More details can be found at [here](#)².
